Personal Profile

I am a hardworking, motivated, and highly skilled Full Stack Developer with a strong foundation in both frontend and backend technologies. I specialize in building responsive, dynamic, and user-friendly web applications using HTML, CSS, JavaScript, and modern frameworks like React, Redux, jQuery, and Bootstrap. My backend expertise includes PHP, Node.js, SQL, and Postgres, enabling me to create secure, scalable, and efficient server-side solutions.

With proficiency in programming languages such as Python, Java, and C#, I bring versatility to my development process, supported by strong experience in using Git, GitHub, and the Command Line for version control and project management. I excel in Remote API Access, seamlessly integrating third-party services into custom applications.

I possess excellent communication and problem-solving skills, ensuring attention to detail and accuracy in my work. Whether working independently or as part of a team, I consistently deliver high-quality results. Passionate about learning and staying current with new technologies, I am eager to contribute my skills to innovative projects and further develop as a Full Stack Developer.

Key Skills and Attributes

- Expertise in frontend development: HTML, CSS, JavaScript, React, Redux, jQuery, and Bootstrap
- Proficient in backend technologies: PHP, Node.js, SQL, and Postgres
- Strong programming skills in Python, Java, and C#
- Experienced in version control using Git and GitHub
- Skilled in Remote API Access for integrating third-party services
- Proficient in Command Line operations for efficient development workflows
- Hands-on experience with Cloud Application Development
- Excellent communication and problem-solving abilities
- Highly organized, detail-oriented, and effective in time management and multitasking
- Quick to learn and adapt to new frameworks and technologies

Experience

IT Career Switch – Coding Traineeship (2023-2025)

I have successfully demonstrated my ability to apply the skills I learned during my traineeship by working on two real-world projects as a full-stack developer: Gazetteer and Company Directory. Gazetteer involved using map templates and functions from Leaflet to retrieve various types of information from third-party APIs, utilizing PHP routines to gather data about countries worldwide. The second project, Company Directory, is a database application that allows users to Create, Read, Update, and Delete (CRUD) entries unless the system detects dependencies that prevent deletion. This functionality was implemented using PHP routines that execute SQL queries on the database.

Administration Assistant, Think Different Events Ltd (August 2022 to December 2022)

I worked at an Event Management company as an Administration Assistant, where I applied my skills that I learned in school to use. Within this role, I was responsible for many things, such as:

- Filing documents
- Storing financial information
- Buying equipment for the office
- Carrying out all other administrative tasks as instructed by my supervisor

Teacher - Al-Farooq Community and Education Centre (2024-2025) I was a

teacher at a mosque, where I:

- Taught the Qur'an and other books to a large class of children
- Was responsible for health and wellbeing of students as well as other teachers
- Made sure the students understand what is being taught to them and to let them know I am there to help and care for them

Education

King's Park Secondary School (2016-2022) Qualifications:

- Higher Administration & IT – B
- Higher History – C
- National 5 Accounting – C

- National 5 Administration & IT – B
- National 5 Business Management – B
- National 5 English – B
- National 5 Mathematics – C
- National 5 History – C
- National 5 Religious, Moral and Philosophical Studies – C

Islamic Studies Course

Al-Farooq Community and Education Centre (2018-2023)

I attended an Islamic studies course at Al-Farooq Education and Community Centre in which I learned and analyzed classical Islamic texts and books from famous Muslim scholars of the past. From the same course, I also learned the Arabic language in which I can now speak it as a second language and can write with no grammatical errors.
